

NA.YADRA

Pacific Maritime Intelligence Platform

NA.YADRA is an advanced Pacific-focused maritime intelligence and OSINT fusion platform designed to improve maritime domain awareness, counter-narcotics monitoring, vessel anomaly detection, and regional intelligence sharing across the South Pacific. The platform integrates AIS vessel tracking, dark vessel monitoring, zone intelligence, threat scoring, satellite overlays, and operational alerting capabilities into a single intelligence environment.

Capability	Status
Live AIS Vessel Tracking	OPERATIONAL
Dark Vessel Detection	ACTIVE
Threat Scoring Engine	ACTIVE
Zone Monitoring	ACTIVE
Rendezvous Detection	ACTIVE
Cross-Zone Tracking	ACTIVE
Satellite Overlay Integration	TESTING
Operational Intelligence Reports	ACTIVE

Current operational focus areas include: • Fiji EEZ • Suva Port • Lautoka Port • Kadavu Corridor • Lau Group • Vanua Levu • Pacific transit routes Future expansion targets: Tonga, Samoa, Vanuatu, PNG, Tuvalu, Kiribati and Micronesia.
