

NA.YADRA

Operational Maritime Intelligence Briefing

FOR GOVERNMENT, CUSTOMS, LAW ENFORCEMENT AND REGIONAL SECURITY USE

NA.YADRA is a Pacific-focused maritime intelligence and operational awareness platform designed to support: • Counter-narcotics monitoring • Maritime domain awareness • Vessel anomaly detection • Dark vessel monitoring • Cross-zone vessel tracking • Regional operational intelligence • AIS gap analysis • Threat scoring and intelligence fusion The platform combines AIS vessel intelligence, operational alerts, satellite overlays, and real-time monitoring into a unified intelligence environment.

Capability	Operational Status
Live AIS Vessel Tracking	ACTIVE
Threat Scoring Engine	ACTIVE
Cross-Zone Tracking	ACTIVE
Dark Vessel Monitoring	ACTIVE
LOITERING Detection	ACTIVE
Rendezvous Detection	ACTIVE
Operational Alerts	ACTIVE
Satellite Overlay	TESTING

Future Development Roadmap

- AI-assisted anomaly detection
- Multi-agency intelligence sharing
- Pacific regional threat network
- Satellite radar integration
- Predictive vessel route analysis
- Mobile operational dashboard
- Automated incident reporting
- SMS and email intelligence alerts
